

Why a Great News Radio Theatre Troupe?

The prophets were among the first to use the performing arts to get God's message into the hearts of God's people. Just look at the ministry of Ezekiel, Jeremiah, and Isaiah to name a few. Once they had the attention of the people, they would deliver a powerful Word from the Lord.

There is nothing that can replace the preaching of God's Word, and few things can move hearts like the Word of God in music. At the same time, perhaps nothing has the power to arrest people's attention, saved or lost, as effectively as the performing arts.

This is not just entertainment; it is evangelism.
